\*\* If a student fails a course and must repeat it, they may be required to audit a lab course that they have previously passed in order to maintain the hands-on skills associated with those applied lab courses. Students must pass the theory, lab, and clinical segment for each term before progressing to the next term.

**Page 99 (Revision)**

**FOR NEW JERSEY STUDENTS: CLASS A JOURNEYMAN ELECTRICIAN LICENSURE**

Licensure as a Class A Journeyman Electrician is available when an Applicant has acquired 8,000 hours of practical experience working with tools in the installation, alteration or repair of wiring for electric light, heat or power, which work shall have been done in compliance with the National Electrical Code, and who has had a minimum of 576 classroom hours of related instruction.

You can read more about the specific opportunities for the Class A Journeyman Electrician license on 13:31-5.1 Initial Class A Journeyman Electrician license of the NJ Administrative Code Board of Examiners of Electrical Contractors.

The New Jersey Board of Examiners of Electrical Contractors website also has additional information on the electrical contractor licensure exam and requirements for other electrician qualifications and licensure at: <https://www.njconsumeraffairs.gov/elec> (Note: in order to become a Licensed Electrical Contractor, which is different from a Qualified Journeyman Electrician, the state of NJ requires all applicants to have completed an approved four-year electrical apprenticeship program).

**For Pennsylvania Students:** No state license is required in Pennsylvania, but to perform electrical services you must comply with the state's Home Improvement Consumer Protection Act, and there may be license requirements for your specific municipality that you can check into for further details. It is possible in some Pennsylvania municipalities to become a licensed journeyman by acquiring adequate on-the-job experience and passing an exam issued by the International Code Council (ICC) in the county or city you plan to operate in. Many Pennsylvania cities, such as Pittsburgh and Philadelphia, do not offer journeyman electrical licensing.

**MCB327 PRACTICUM EXPERIENCE 120 Contact Hours/2.0 Semester Credits**

This course provides supervised placement in a non-classroom setting at a health care facility/medical office, remote site, or computer simulation. This experience enables the student to synthesize and apply concepts and skills learned in the Medical Coding and Billing program. The Practicum Experience permits student involvement in the medical coding and billing environment of the facility/simulation.

Prerequisites: MCB 313, MCB 314
